

FREE WORKFORCE TRAINING FOR AEROSPACE JOBS!

We are looking for candidates desiring a career in the aerospace industry to join our training program! We are providing training as either an Aerospace Composite Manufacturing Technician or an Aerospace Basic Electrical Technician which we are offering through the BayTech Wagner-Peyser Grant (program is FREE to participants) in partnership with the San Jacinto College EDGE Center. This hybrid program will take approximately 6 to 8 weeks and a nationally recognized CerTEC certification will be awarded to those who successfully complete the course and certification exam. We will work with industry partners to identify potential internship and/or job opportunities that may be available for participants to start their career in industries like aerospace, aviation, energy, and more!

BayTech Wagner-Peyser Grant Curriculum
www.baytechsolutions.org

Composite Manufacturing Technician (145 CH)

Composite Materials Technicians work to provide materials that offer superior qualities of strength, weight, and flexibility in manufacturing products.

Course Topics Include:

Material Safety	Types of Materials
Material Tools	Assembly Operations
Inspection Techniques	Drilling & Cutting

Basic Electrical Technician (161 CH)

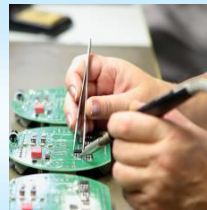

Electrical technicians work with electrical engineers using design plans to construct or repair electrical systems. They can detect a potential problem with a design and inspect products to ensure electrical items are assembled properly and will work as expected.

Course Topics Include:

AC/DC	Digital
Cable and Connectors	Analog
Wire Harnessing	Circuit Construction

Program Requirements:

- Either U.S. Citizen or Authorized to Work in U.S.
- At Least 17 Years Old
- If Male: Registered in Selective Service
- Unemployed
- Ready to Work
